

CS221 - Group Project 05: Minutes of Meetings

Version: 1.0

Meeting Details

Reason: Risk Management and UI planning

Date: 18th October 2012

Time: 9:00 - 10:45

Location: Delphinium

Attendees: Ed, Chris, Ollie, Rich, Kit, Sam, Jacob

Apologies: Ivan (overslept)

Minute Taker: Sam Morrison

Matters Arising

1. Chris considered any possible risks that the group may encounter during the project. Rich and Chris will continue to add any additional risks before Tuesday's meeting.

Action: chs17, rig6

2. Jacob, Sam and Ed focused on each page UI design. Ed and Sam will present them in digital format.

Action: sjm16, edd14

3. For the time being, upon sign up, users won't have to confirm their email.
4. During the UI page design, breeding won't require it's own page. The user will put their monster up for breeding (on their 'stable' page) and the friend will have to visit their 'stable' and decide if they want to breed or not.

New Business

1. A project plan is to be looked up (possibly a Gantt chart) by the project leaders.

Action: chs17, rig6

2. A sequence chart for a page has been given to Kit and Ollie to do, and Sam and Ed will continue it with the other pages in future meetings.

Action: krf, olr1

Any Other Business

1. A back up for minute taker was needed, Ollie put himself forward.
